AT THE BASIN

Washing hands

Water, soap and towel, in this order.

1

Turn on the water

Wet both hands.

2

Take soap

One pump is usually enough.

3

Soap up hands

About as long as a song.

4

Rinse

Until the foam is gone.

5

Turn off the tap

So the water stops running.

6

Dry hands

With the towel.

When?

a few common times

After the toilet

Before eating

After blowing the nose

When we get home
